### The Rainbow.

BY MRS. AMELIA B. WHITNEY.

I sometimes have thoughts in my loneliness hours  
That like my heart like the dew on the flowers,  
Or a ramble I took one bright afternoon  
When my heart was as light as a blossom in  
June;

The green earth was moist with the late fallen  
showers,  
The breeze fluttered down and blew open the  
flowers;

While a single white cloud, to its haven of rest,  
On the white wing of peace, floated o'er,  
With a wing on the earth and a wing on the sea.

As I threw back my tresses to catch the cool  
breeze, that scattered the rain drops and dimpled the  
seas;

Far up the blue sky a fair rainbow unrolled  
Its substituted pillars of purple and gold.

"Twas born in a moment, yet quick as its birth,  
It was stretched to the utmost ends of the  
earth;

And, fair as an angel, it floated as free,  
With a wing on the earth and a wing on the sea.

ON THE MUTUAL PLAN.

This company will charge at annual rates,  
and in three particular cities, the superiority  
over all existing Companies.

1st. Deduct one per cent commission  
from the Mutual Insurance Fund, instead of the  
entire premium.

2nd. Deduct one per cent of our each  
year, payable in cash, when two-thirds of the  
and dollars are accumulated as a reserved in-  
surance fund, such a bearing interest from date  
and time of deposit.

3rd. In addition to the usual Mutual Fund  
received from Fund, received from mutual  
agents, the capital stock, one hundred thousand  
dollars, and all the reserved fund of the Joint  
Stock Insurance is pledged for the payment of  
losses.

ON THE JOINT STOCK PLAN.

The rates are reduced one third the amount  
charged on the mutual plan—the Company tak-  
ing only what it worth, to insure a life a gen-  
eral average, for a given time, and not taking  
any risk, and the premium and interest par-  
ticipating back a portion of one's own money, making  
it so much profit.

The great advantage of this mode of insurance over the mutual plan may  
be thus illustrated. Suppose a father, at the  
age of thirty-two years, reserves to extend  
his life to one hundred and twenty years, and  
is life. On the Mutual plan it will secure him  
a policy of one thousand dollars. On the Joint  
Stock plan the same twenty-five dollars will se-  
cure him a policy of one thousand and five hun-  
dred dollars.

ON LIFE AND HEALTH COMBINED.

The rates are now available and assumed as  
safety to the company will permit, doing  
in this form of great importance to all who  
have others depending on them for support.

CALIFORNIA LIFE RISKS.

seen at LOWER RATES than by any other Com-  
pany.

This is owing to the fact that the rates on the

Joint Stock plan of this Company are one third

less than in Mutual Companies generally.

Given the certificates of our each

year, payable in cash, when two-thirds of the  
and dollars are accumulated as a reserved in-  
surance fund, such a bearing interest from date  
and time of deposit.

THE HARTFORD LIFE AND HEALTH INSUR-  
ANCE COMPANY IS HIGHLY PROSPEROUS.

Its business has increased year by year.

Its Managers are among our most respec-  
tive men.

They are men who exercise the utmost care  
in their discharge of their duties, and are deter-  
mined to do every thing successful.

—Hartford Daily Times.

All heads of families should consider the im-  
portance of Life insurance. All men living  
upon salaries should in this way provide for  
the future. All who wish to make investments will  
find an examination that it can be in no wise  
safe in this.

Tall,

well-formed, handsome face, brown hair,  
clear blue eye, good head, and ordinary  
farmer's dress. What struck me was  
the peculiar expressiveness of his face

warmth and fluency of his remarks.

With a wing on the earth and a wing on the sea.

How calm was the ocean, how gentle its swell!

Like a woman's soft bosom it rose and it fell!

While its bright sparkling waves, stirring  
laughingly over.

When they saw the fair rainbow, kelt down on  
the waves.

"No, my friend," said the Colonel, to his grave companion.

"No, it is entirely impossible for one man, as you

have evidently been, in the lap of luxury—

perhaps even in a sealed frame—

—know where we suffered here in '36. I'll tell you exactly how it

was with me, and I have seen nothing—

O, nothing at all, —to what some have!

You see I was out there in Rock county

—had a little cabin in the woods away from town some dozen miles. I had a

hundred cows, twenty mares, seventeen

filies, a wife, and three children—but

that's the sum of the angel that floated above.

How wide was the sweep, of the beautiful wings!

How radiant the colour of the rainbow!

I looked on the sky, was suspended in air

Between the clouds, the rainbow was there!

Then forming a circle, as brilliant and whole

As the sun in the sky, it rose and it fell!

While its bright sparkling waves, stirring  
laughingly over.
